

A close-up photograph of brown leather with a prominent, cracked texture. The leather is folded, creating deep shadows and highlights that emphasize its grain. The color is a rich, warm brown.

DAHLOVIST[®]

LEATHER CRAFTS
SINCE 1967

Leather furniture manufacturer — tradition and renewal

The family enterprise has
manufactured upholstered
furniture and armchairs
since 1967 in Jakobstad,
Finland.

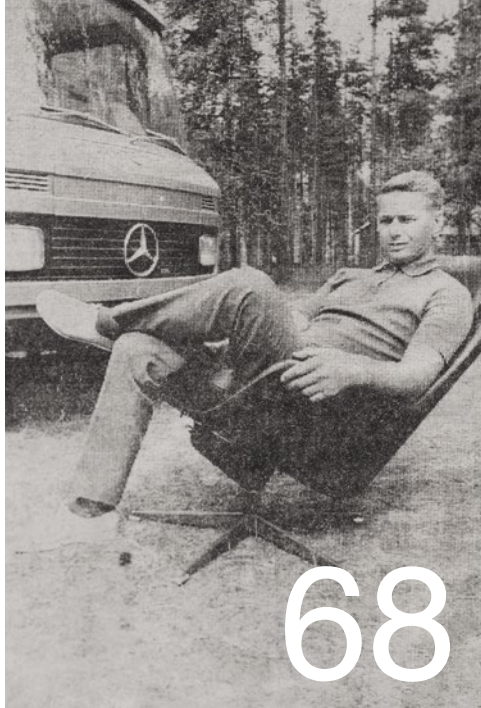

A black and white photograph of a man in a suit sitting in a workshop. The man is in the foreground, looking slightly to the right. He is wearing a dark suit, a light shirt, and a patterned tie. In the background, several other people are working at tables, and there are various tools and materials scattered around. The scene is brightly lit, possibly by large windows.

High-quality materials

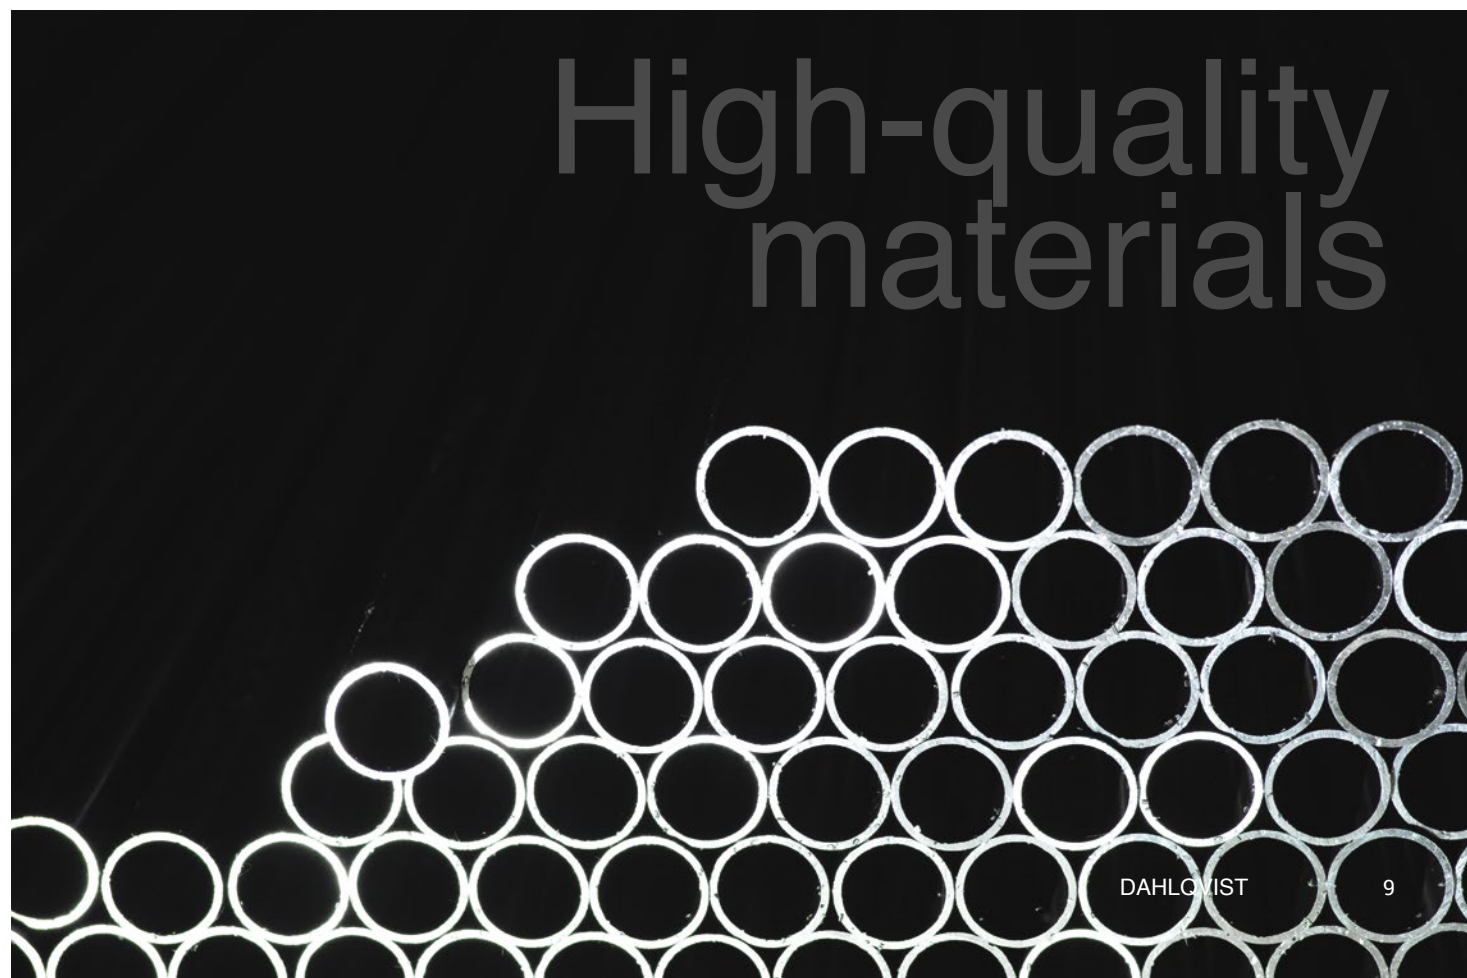

A wealth of experience is vital when choosing the best materials for the best furniture. The mechanisms in our products have been developed to work holistically to enhance the functional ergonomics of whoever sits on them.

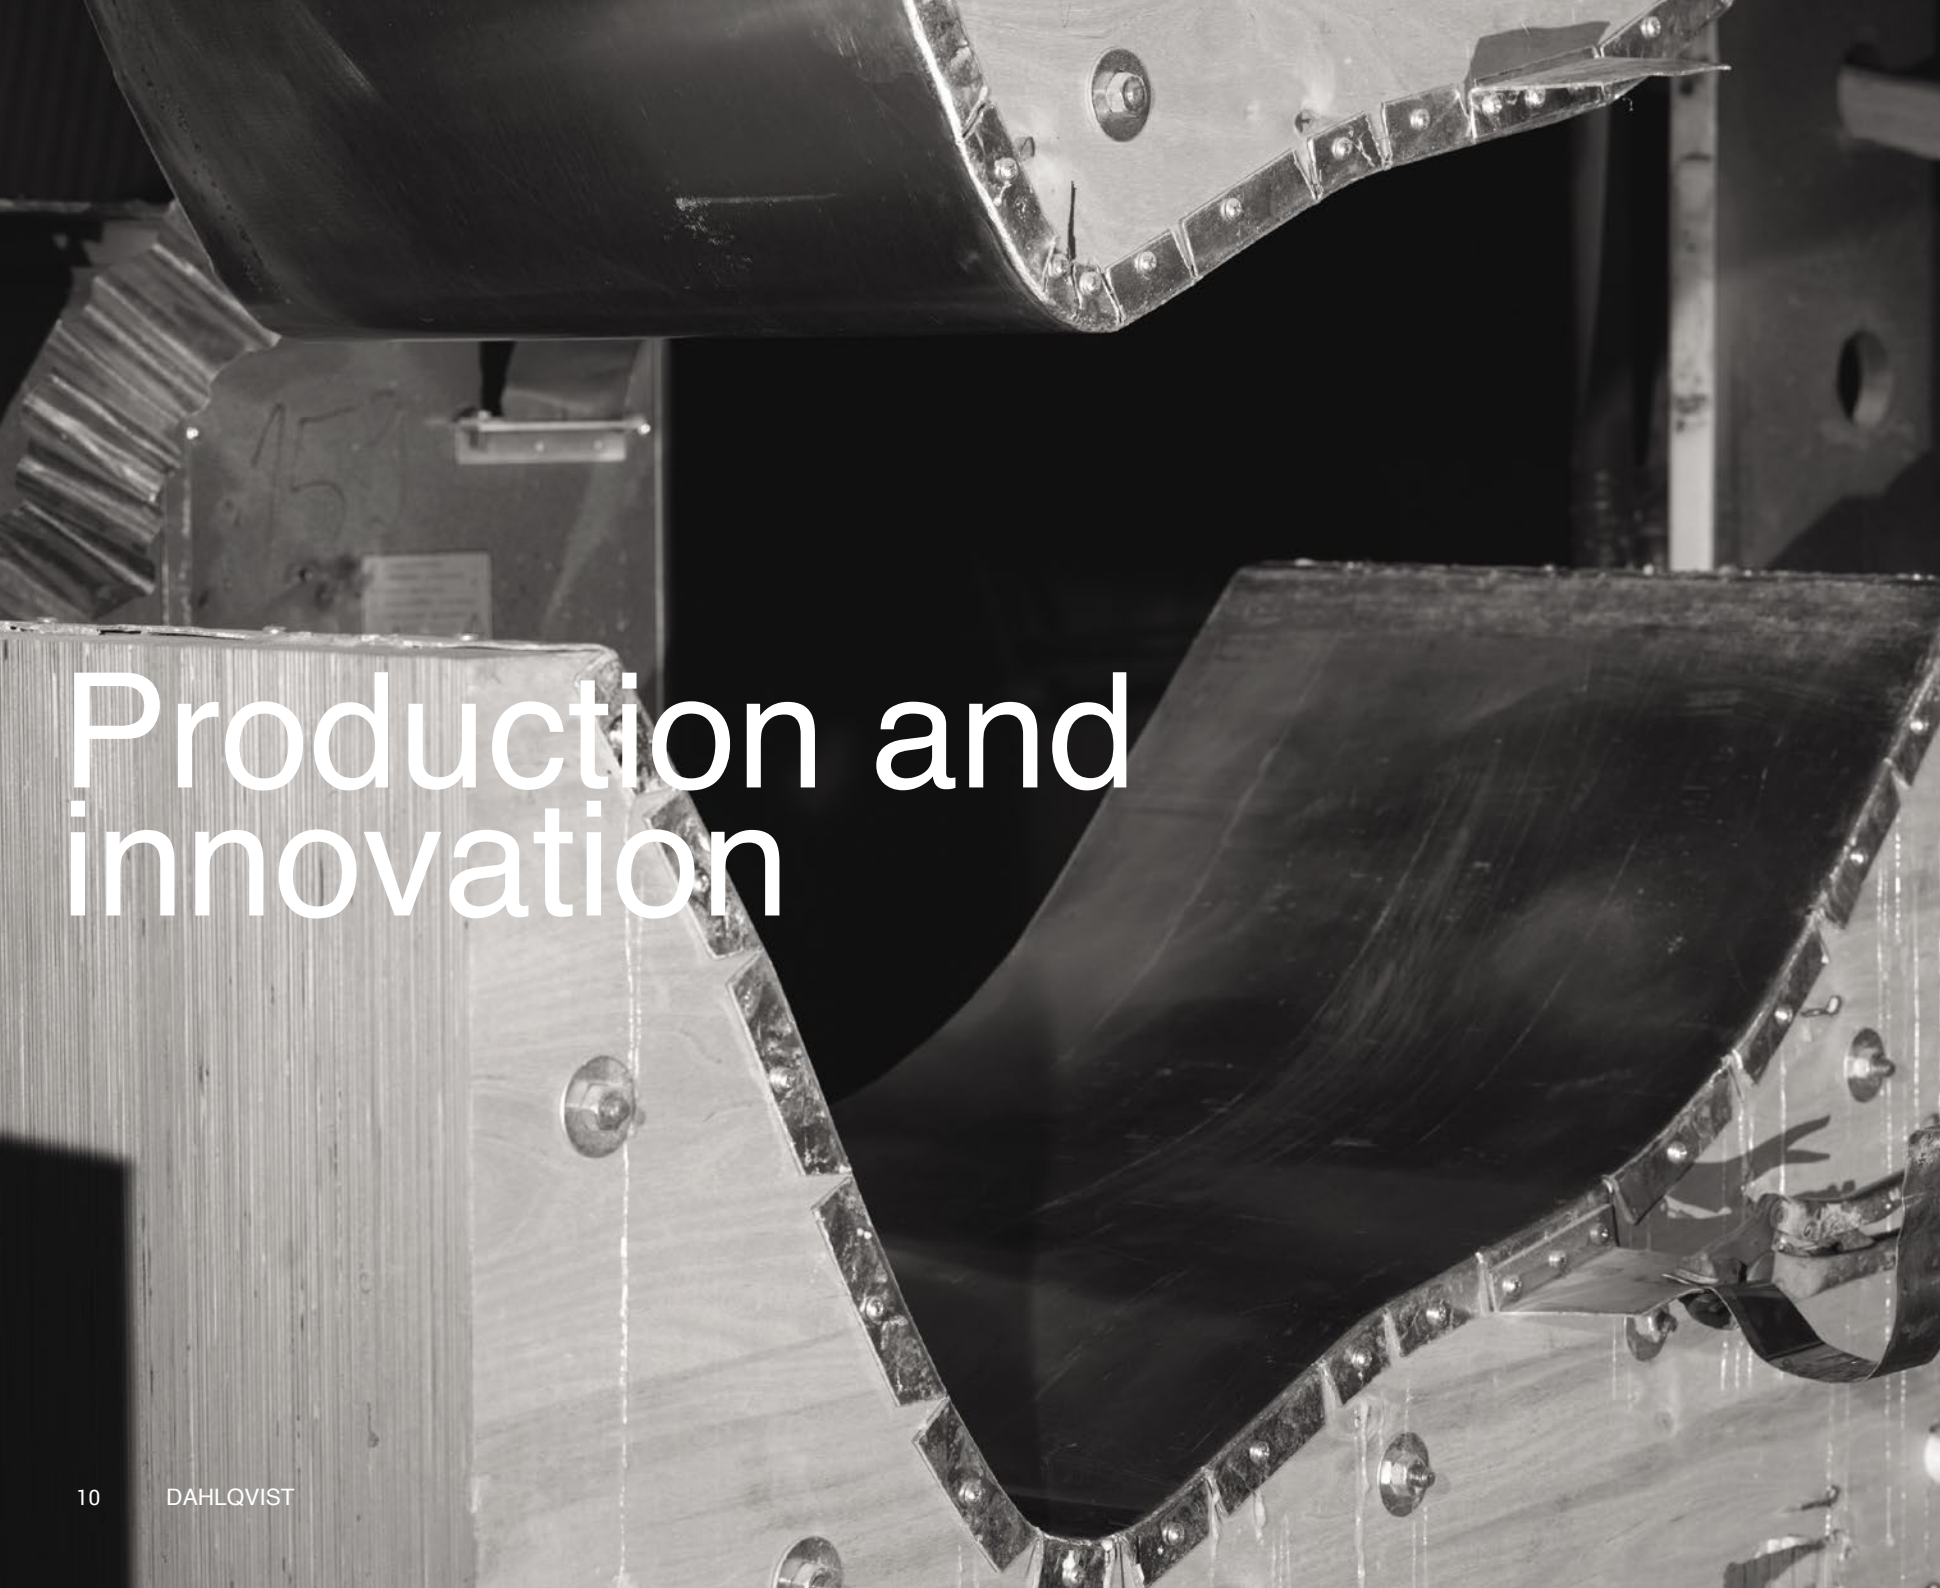

It is our wish that the furniture
will continue to provide
comfort and joy for many
years to come.

High-quality materials

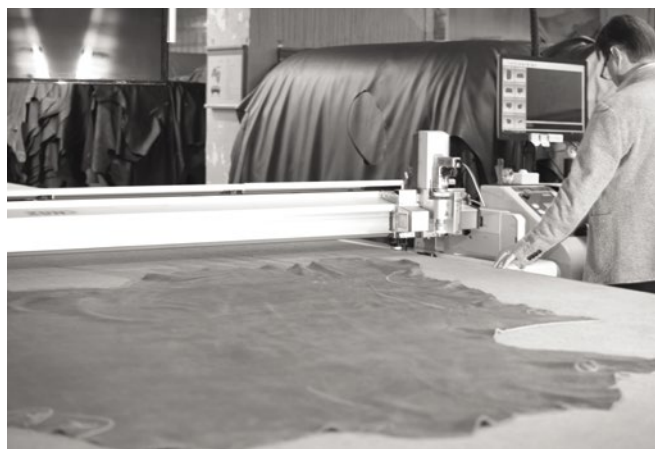

Production and innovation

We put great effort into our own innovations, not least those concerning construction of the frame and base.

This may not be visible to the eye but it means so much in the long run.

Dahlqvist can confidently boast about the quality of their products because their philosophy ensures that their innovations are brought to the market quickly, while their entire production chain, from product to final inspection, takes place under one roof.

Our Production

A black and white photograph showing a close-up of a mechanical assembly. In the foreground, a coiled metal spring is visible, with a gear-like component nearby. The background is filled with more springs, creating a sense of depth and repetition. The lighting highlights the metallic textures and the intricate design of the parts.

Our patents

Dahlqvist's patents are only used in their own products and ensure that the customer truly gets the most comfortable seating experience.

In order to achieve this, we have focused on the feeling of comfort and relaxation, and at the same time we have not made any compromises on the design and details.

Our furniture

Second generation

BD continues to uphold the traditions and philosophy of the past and they unite in the development of today's technical production.

A generational change was made in 2008 and, since then, the focus has been on sitting comfort, quality of leather, which is one of BD's hallmarks, and development of new mechanisms: all of this is combined in new designs. We are proud of our high quality, competence, punctual deliveries and good service.
